

Flood Control Channel Rehabilitation in Your Area

Fullerton Creek Concrete Repairs, Phase IIA

OC Public Works will be performing maintenance to the Fullerton Creek flood control channel in your area to maintain flood protection for your community.

Project activities will include the use of large equipment within the flood control channel.

WHAT

Construction crews will begin maintenance within the flood control channel to help ensure the channel continues to operate effectively and reduce the risk of flooding in your community.

Maintenance activities will include removal and replacement of the concrete lining within the channel at various locations within the project area.

Work will progress from one location to the next location as various activities are completed, and crews will not remain at each location for the entire duration of the project. Residents may experience a temporary increase in noise during project activities.

Partial lane closures may be needed during construction. Traffic control signs and flaggers will be present.

WHEN

Anticipated Construction Duration

June 15 - October, 2026

Working Days and Hours

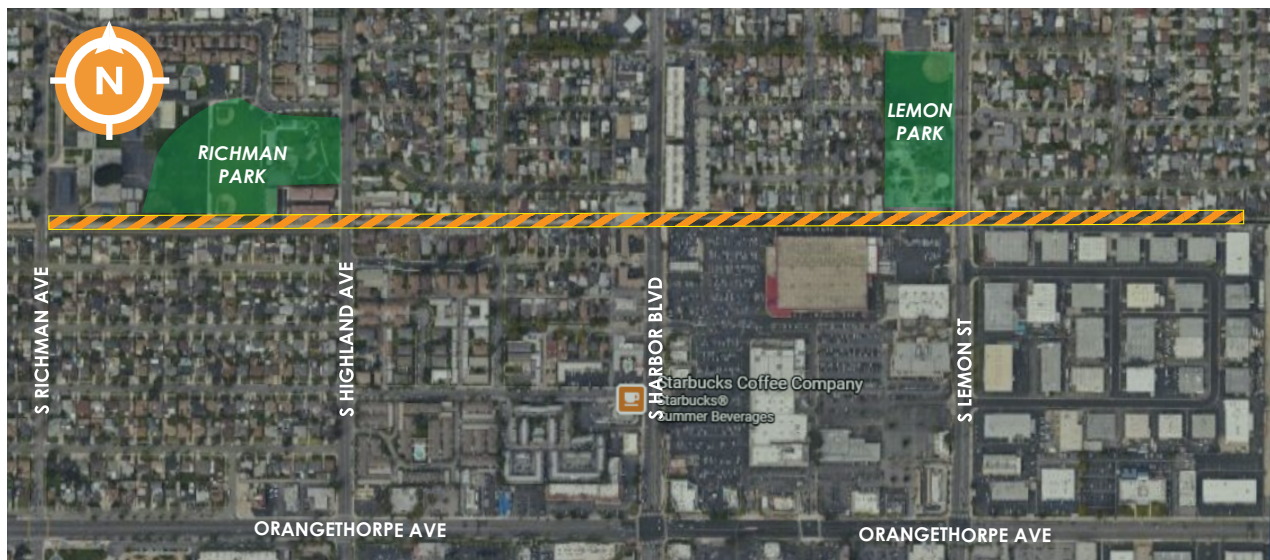

Monday - Friday, 7:00 a.m. - 5:00 p.m.

The construction schedule is tentative and subject to change due to weather and other factors.

Your safety is our top priority.

Never enter a flood control channel, as they can be dangerous and public access is restricted. Please stay out of the project area and observe all project safety signs, barriers and personnel.
